

2 DAY NSI GEL NAILS

This course offers a professional start for those committed to becoming a full service nail technician.

What will the course cover?

- Anatomy, nail disorders and diseases, health & hygiene
- Work station set up
- Hands on application of chosen system i.e. application of tips, blending, overlay, filing, re-shaping and finishing application. Removal of nails.
- Maintenance/rebalancing of chosen system.
- Nail varnishing and varnish removal.
- Product knowledge.
- Client care and consultation, home care, retailing and general business advice.

What do I need to know before I start of the course?

Beginners - must attend both days 1 & 2

Existing nail technicians - day 2 is used as a workshop day for existing nail technicians who wish to update their current application or learn a new one.

In this case you must be able to apply tips, blend them and be able to do at least one overlay. You will be working in pairs during your training and all nail extensions should be removed beforehand. Refreshments will be provided, however we recommend you bring along your own lunch.

How will the course be taught?

Day 1 - The course starts with understanding theory and a practical demonstration followed by students working on each other to practice techniques.

Day 2 (1 week later) -The course starts viewing existing application and reviewing as necessary. Maintenance and removal. Practical demonstration followed by students working on each other to practice techniques

How will the course be assessed?

Observation of practical skills during the course along with oral questioning to clarify understanding. Home assessments will be rated on a score card.

Will I need to bring any materials?

Please bring with you all your Manicure items and the Acrylic or Gel kit will be supplied for you on the day

Is the course accredited?

The course is accredited by BABTAC, Professional Beauty and The Beauty Guild. This course includes a certificate for their chosen system which will enable the student to obtain liability insurance. This course is worth 39 CPD points and

can be put towards a nationally recognised qualification. (Subject to change)

Price: £225+VAT (includes starter kit)
